

ISG™ Patient Photo Wristbands

Enhancing Positive Patient Identification

To enhance positive patient identification, some healthcare organizations want to capture the patient's photo and print it onto the patient's wristband.

Your local ISG dealer offers complete solutions for capturing the photo and printing the wristband. Black and white as well as color wristband printers are available. Our easy-to-use and seamless photo capture solution, called SmartFoto, allows you to implement without a major investment in money, IT time and training. There is virtually nothing to learn and you do not have to switch applications or purchase expensive middleware.

From cameras to photo ID software and thermal printers to a variety of wristband and label options, the ISG has your organization covered.

Identification Systems Group

— The ISG™ is a nationwide network of local experts in identification, security, and card personalization, providing high quality, cost-effective solutions backed by local support and the strength of our Professional Services Certification program. Each company works together to provide seamless nationwide support and collaboration in the identification and card issuance industry.
