

Non-Magnetic Badge Reels

Finally, a Badge Reel for the Radiology Team

Key Features

- Non-ferrous metal
- MRI safe
- Clothing friendly
- No-twist design
- 360° swivel
- Customizable

Designed specifically for healthcare, these MRI safe badge reels are the perfect ID Holders for any staff or team members that work with the Imaging department. Nurses, doctors and technicians won't have to worry about removing and reattaching their identification badges.

The reel is unaffected by magnets, making them perfect for use around MRI machines or other powerful magnets. It's no-twist design ensures that the credentials of the wearer are front-facing and visible at all times. The clamp will not snag on clothing as it does not have any teeth or grips.

A custom badge reel with your logo serves as a great way to increase your organization's brand recognition.

About the ISG

The Identification Systems Group (ISG) is a nationwide network of local experts in identification, security, tracking and card personalization technologies, providing high quality, cost-effective solutions backed by local support and the strength of our Professional Services Certification program. Each member company works together to provide seamless support and collaboration in the identification and issuance industries across the USA and Canada.
